

A concrete fireplace surround created by DEX was featured in the "STYLE News" section of the October, 2004 issue of *Atlanta Homes and Lifestyles* magazine.

"The biggest trend that we're seeing is this movement toward SIMPLICITY," says Rothman. "I'm avoiding using the word modern because that's a style that can be cold and scary; I mean more austere, simple lines—nice forms that are articulated. It can appear to be more modern, but with a warmer feeling. Even if it's a traditional project, you'll see cabinetry that is not as ornate. We keep it simple and clean; not a lot of fussiness about the design." Clean-lined concrete fireplace surround, Dex Studios, (404) 753-0600.
